Objective

I'm looking for a career switch, currently learning HTML, CSS and Javascript. I've already finished 2 small projects, a CV website only for my resume and a website for a local radio using only HTML and CSS. I can send them at request.

Experience

- **Ischia Sport** 08/2020 - Present
 - Construction Engineer
 - Prepared contract documents and requisite cost estimates
 - Coordinated all work operations with clients and relevant government officials
 - Conducted regular and preventive maintenance checks
 - Skills in reading and interpreting construction specifications and blueprints
 - Time management skills
 - Coordinated workers on site
- **Acced Group** 05/2019 - 08/2020
 - Electrical Design Engineer
 - Communicate with other engineers and other relevant parties to ensure current engineering projects are on task and to finalize details of upcoming projects.
 - Working according to customer requirements using technical and operational guidelines.
 - Drawing, sizing and placement of electrical panels and electric components.
 - Verification and relocation of electrical components.
 - Analysis of ongoing projects.
 - Fill the database with newly emerging components.
 - Comparing electrical drawings from previous projects for choosing from multiple suppliers only materials which are approved by marine standards and yard.
 - Result oriented and a team player with abilities of working in high pressure environments.
 - Feedback problems to the Manager/Project Manager and follow their solutions.
 - Undertake any other tasks and duties within the scope and grade of the post.
 - Attending meetings and reflecting to the current project status and problems encountered.
- **Acced Group** 02/2019 - 05/2019
 - Engineer at Damen Shipyard Galati
 - Responsible for aspects of underground work including cable pulling, installing instruments, ladder rack, small power and lightning.
 - Fix the problems and connect wires to circuit breakers and other components within designated schedules
 - Working with MCT Brattberg and Roxtec products.
 - Maintained electrical equipment and instruments to ensure safety and working conditions.
 - Understanding of the required materials for a ship.
 - Connecting panels for lighting systems.
 - Mounting and connecting fittings, switches, fire detectors, lamps.
 - Reading and understanding the drawings (materials position, power circuit, etc.) for each deck of the yacht.
 - Examined installations and observed operations to ensure conformance to design and equipment specifications.
 - Project:** Sea Xplorer 77 La Datcha

- **Men in Black Advertising**

04/2014 - 02/2019

- Team Leader

- Coached team members in customer service techniques, providing feedback and encouraging them to reach their highest sales potential.

- Implemented new working processes that delivered continued improvements.

- Established open and professional relationships with team members which helped resolve issues and conflicts quickly.

- Provided instruction, coaching and motivation to all employees during the shift.

- Developed and enforced safety standards and procedures for food quality and sanitation purposes.

- Operated a cash register for cash, check and credit card transactions with 100% accuracy

Education

- **Computer Science at Dunarea de Jos, Galati**
